5. **Economic Update**  
   Nathan Moeder of the London Group Realty Advisors presented his economic outlook for 2016 and beyond from the viewpoint of the realty industry. In his overview of commercial markets, Mr. Moeder stated that a steady demand for industrial space is causing a slight increase in rental rates, especially in North County, where lots of incubators, such as breweries and other small businesses are popping up. It is estimated that the San Diego population will increase by one million persons by the year 2050, which will result in the need for 9,000 new homes per year. Apartments are the most desirable investment at the moment due to low vacancy rates. Most of the growth will take place in the multifamily housing area. Mr. Moeder sees a continuing trend in pension fund is investing in apartments because of increasing rates and the demand for U.S. properties by international investors. Mr. Moeder suggested there will be a shortage of 43,000 to 119,000 single family homes. Affordable homes for six-figure incomes are a possibility in coming years. Some potential challenges to growth in San Diego are the changing character of neighborhoods, the scarcity of vacant land, and lengthy entitlement processes.

6. **Year-End Audit**  
   Kevin Starkey of Macias Gini & O’Connell LLP reported that the audit of the County Investment Pool was finalized in November 2015 and a clean report was issued. There were no findings related to compliance or internal controls during the audit. Mr. Starkey thanked Israel Garza and the Treasury staff for their assistance with the audit process. Interim work will begin in late June and then the year-end work will commence in September. The County Investment Pool received the GFOA Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ending June 30, 2015.
7. **Portfolio Statistics & Strategy Update**
   Rob Castetter, Chief Investment Officer, reviewed the portfolio statistics from the monthly report for March 2016. Mr. Castetter noted that compared to last year at this time the current book value is up by $1.5 billion. Yield to maturity increased from .50% to .76%. Weighted Average Maturity is shorter than last year but the pool is in a good position should interest rates rise in 2016. The investment pool is projected to reach a new high of $10 billion this year. The investment team will continue to strive for the AAAf rating. Investment in Supranationals is up 5% from last year. Kay Chandler of Chandler Asset Management explained the purpose and primary principles of the long term fund (Pool B) to the committee.
