Notes

Yield to maturity (YTM) is the estimated rate of return on a bond given its purchase price, assuming all coupon payments are made on a timely basis and reinvested at this same rate of return to the maturity date. Weighted Days to Maturity is average time it takes for securities in a portfolio to mature, weighted in proportion to the dollar amount that is invested in the portfolio. Yields for the portfolio are aggregated based on the book value of each security.

Monthly Investment Returns are reported gross of fees. Administration fees since fiscal year 17-18 have averaged approximately 7 basis points per annum. **All Investments held during the month of December 2025 were in compliance with the Investment Policy dated January 1, 2023. The County Treasurer believes the Treasury Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and incoming cash to meet the next six months of expected expenditures.

While Safety, Liquidity, and Yield remain the Fund's primary investment objectives, all else being equal and acting under statutory investment limitations, the County Treasurer affirms his/her commitment to the consideration of ESG criteria in evaluating securities. Sustainalytics, a Morningstar Company, provides high-quality, analytical environmental, social and governance (ESG) research, ratings and data to institutional investors and companies. Using Sustainalytics scoring, which is available on Bloomberg, the Pool had a weighted average MTN/CP/CD score of 16.98 as of 12/31/25, placing it in the "Low Risk" category. Sustainalytics' ratings categories are: negligible (0-9.99), low (10-19.99), medium (20-29.99), high (30-39.99) and severe (40+).
